Travel charger with two 1A and 2.1A USB outputs, Intelligent Charge and European plug

Always having smartphones and tablets charged during your travels is essential. This **wall charger**, also designed for the Apple Addicted, is the ideal product for travelling and for getting from A to B without any worries.

The power supply, equipped with a European wall plug, allows you to supply energy to two devices at the same time thanks to the two USB 1A and 2.1A outputs with which it is equipped.

In particular, the blue USB port uses **Intelligent Charge** technology.

Thanks to this innovative system, the charger can automatically recognise the maximum power that can be absorbed by your device and regulate accordingly. This allows you to have the maximum recharge in the shortest possible time: in fact, in just 30 minutes, the charge level of your device will already be at **50%**.

In a pouch or a handbag, you will always have a valuable ally that will support your general daily needs.
