

## Wireless Earphones with Air Conduction System

SKU: TEEREAIRBTK

**The perfect multipoint headset for when you're riding a bike or scooter: you can hear external noises without missing out on music and calls**

### GET AROUND SAFELY

**Wireless earbuds with Air Conduction System** are perfect for travelling around when you need to hear the sounds of your surroundings. These headphones don't actually plug into your ear, but **sit on the outside of your ears** while still ensuring crisp audio. This is possible thanks to **Air Conduction System technology**, which ensures an **optimal balance** between the **sound** from the headphones **and the sound of your surroundings**.

### PRACTICAL USE IN EVERY SITUATION

Thanks to **the perfect grip** offered by the **arches**, stability is excellent even on the most uneven paths or cobblestone. The **IPX4 certification** also makes the headphones **splash- and sweat-resistant\***, meaning they can be used in a wide range of situations. The **multi-function button** provides added security: you can listen to music and take calls in comfort without having to look down at and touch your smartphone.

### MULTIPOINT TECHNOLOGY

These wireless headphones feature **Multipoint technology**, which allows you to **connect up to two devices at a time**. You'll have full control over your private and business smartphone at the same time, even while you're cycling or scootering around town.

### LONG BATTERY LIFE

With a use time of **up to 6 hours** and a comfortable, lightweight design, these headphones are ideal for extended use. If the battery is low, simply connect the headphones to a power source with the **Micro-USB** cable included and you'll have a full charge within 90 minutes.

\*Not designed for full immersion in water. Splash-proof only.

#### **DEFINING FEATURES:**

- wireless technology compatible with Samsung, Apple, Xiaomi, Huawei and other brands
- Air Conduction System that balances the sounds from the headphones with those of the surrounding environment
