

Selfie Tripod with a light

SKU: TESELFIERINGMINI

Tripod with an LED light for unlimited selfies and streaming even in the dark

TAKE PHOTOS AND VIDEOS WITH CONSISTENTLY GOOD EXPOSURE

The **Selfie Tripod with a light** from SBS is designed to facilitate and enhance **selfies, video calls and live streaming** under any conditions. Photos or videos will be properly illuminated even in closed spaces with little light, such as a room or other inside space, or outdoors at night. By attaching your Android or Apple smartphone to the tripod, you'll have **greater stability** than on any flat surface and avoid shaky or off-centre shots.

ADJUSTABLE LIGHT INTENSITY

You decide where and how much light you need. You can position the small integrated spotlight wherever you want. A button lets you **adjust the light intensity** to three different levels. The swivel clamps and spotlight offer optimum convenience.

CARRY IT WITH YOU EVERYWHERE. EVEN IN YOUR HANDBAG

The Selfie Tripod with a light easily fits into a handbag or backpack. Its **small size** makes it perfect for taking on the road, making shooting selfies or making video calls even easier and smoother.

EVEN WORKS REMOTELY

Inside the box, you'll find a convenient **wireless remote control** with a **range of up to 10m**. This allows you to take photos or start videos without worrying about having to touch your smartphone.

DISTINCTIVE FEATURES:

- adjustable light intensity for maximum control over the required lighting
- a wireless remote control with a range of up to 10m

WHAT'S INCLUDED:

- the tripod with a light
- a wireless remote control with battery included
