

Twin Airop - TWS earphones with Air Conduction System technology

SKU: TESPEARAIROPTWSBTK

Practice sport with your favourite music, and in total safety

Air Conduction System technology provides a perfect balance between music and the external environment

If you run or cycle on busy roads but don't want to give up music and calls, Air Conduction System technology will give you the peace of mind you need. The particular design of the ear pads provides an excellent balance between music and the external environment. In fact, the Twin Airops do not need to be inserted inside the ear because **they use air to transmit sound**. This way, you can always practice your sport **safely**.

IPX5 certified: sweat and rain resistant

The IPX5 certification guarantees resistance to sweat and rain (they are not suitable for diving and swimming). The Twin Airops are ideal in any situation.

Listen to music for long periods while practising your sport, without the need for wires

Twin Airop earphones are designed for jogging, trail running, trekking, cycling and many other sports. The integrated **ear hooks** are comfortable and sit securely on the ears, preventing them from falling off during sudden movements. The **interchangeable silicone eartips** in 3 thicknesses (S, M, L) ensure the earphones fit perfectly: choose the ones that best fit you. Twin Airops can play **up to 10 consecutive hours of music**: perfect even for the most intense workouts. They are completely **wireless**, so you can listen to your favourite songs directly from your smartphone without any wires to impede your movement. If you want to exercise with your device some distance away from you, the connection will remain stable up to **10 metres**. **True Wireless Stereo (TWS) technology** means the headphones will automatically pair when removed from the case.

Make calls without disturbances thanks to Environmental Noise Cancellation (ENC) technology

The **Twin Airop earphones** allow you to talk on the phone via the built-in microphone. Environmental Noise Cancellation (ENC) technology reduces noise from the outside environment: your **voice will be clear even in noisy places**.

Multi-function controls can be activated with a simple touch

Using the **touch keys** on the earphones, you can answer/reject calls, put them on hold, reject them, change tracks, play/pause music and even **activate the Android or iOS voice assistant**. Simply apply light pressure with your fingertip. No need to touch your mobile phone directly.

The portable charging base ensures extended use

The **500mAh charging case** allows you to **charge the earphones anywhere**, even if you are not near a power outlet. Simply insert the Twin Airops: in **1 hour** they will be **fully charged**. Blue LEDs help you keep an eye on the charge level. When the case is out of power, simply charge it by connecting to a mains charger or power bank via the **USB-A to USB-C cable included**. The **LCD screen** indicates the battery status.

Key features:

- wireless
- operating range: up to 10 metres
- True Wireless Stereo (TWS) technology: the headphones automatically pair when removed from the case.
- integrated ear hooks
- 10 consecutive hours of music and calls
- Air Conduction System technology: uses air to transmit the sounds emitted by the earphones for a perfect balance between music and external noise
- microphone with Environmental Noise Cancellation (ENC): reduces external noise during calls to speak clearly with your caller
- multifunctional touch controls with integrated voice assistant activation
- 500 mAh portable charging case with LCD screen to check the charge level of the base and earphones
- earphone charging time: 1 hour
- IPX5 certification: rain and sweat resistant (not suitable for swimming and diving)

Includes:

- 1 pair of Twin Airop earphones
- 1 charging case
- 1 USB-A - USB-C charging cable
- 1 instruction manual
- 3 eartips in different sizes

Twin Airop - TWS earphones with Air Conduction System technology
SKU: TESPEARAIROPTWSBTK

Technical data

Frequency: 2.4 - 2.48 GHz
Standby time: Up to 120 hours
Talking time: 10 hours
Operative range: 10 m
Recharging time: 1 hour
Recharging cable: USB - Type C
Speaker impedance: 32 Ohm
Listening to music: 10 hours
Transmission distance: 10 m
Input: 5 V D.C. 1A
Battery: 100 mAh
Buttons: Multifunction, Touch
Microphone: Environmental Noise Cancellation (ENC), Integrated
Technology: Air Conduction System, TWS
Other features: Wireless
Included accessories: 1 USB-C power cable, 3 interchangeable tip set, User manual, Charging cradle
Sound mode (mono/stereo): Stereo
Audio sound (mono/stereo): Stereo
Color: black
EAN: 8018417438042
SKU: TESPEARAIROPTWSBTK
Weight: 50 g
Charging base capacity: 500 mAh
Number of connections: 1
