

Ultra-Thin 15 W Wireless Charging Base

SKU: TEWIRELESS15WW

Ultra-thin and fast-charging 15 W wireless charger with Qi technology and an Automatic Detection System

PRACTICALITY AND TECHNOLOGY: THE RIGHT CHOICE

The **ultra-thin 15-Watt charging base** allows you to wirelessly charge smartphones with the ultra-fast wireless charging standard enabled.

This accessory stands out due to its **thickness** akin to that of a **credit card**. Due to its ultra-slim design and low weight, it can easily be taken anywhere.

WIRELESS MODE: ON

To use the wireless charging feature, your smartphone must be **Qi technology-compatible**, in order to receive the correct wireless power supply.

This desktop base comes with a **USB cable** that must be connected to a power source. This enables the accessory to transfer the received power to your device.

Simply place your device on top of the tempered glass surface or **no more than 8 mm** away from the base, to charge it.

ULTRA FAST: HERE'S HOW

This desktop base has been designed for when you don't want to waste any time and need a full battery immediately. Connect the base's cable to a **Quick Charge charger** for an ultra-fast charge: after just 30 minutes, your device will be at **60%**.

SAFETY

The base features **ADS (Automatic Detection System) technology** : this system prevents your phone from overheating & overloading whilst charging. The charger can adjust the power supply, so you can safely charge devices that require **7.5 W of power**, such as the iPhone XS, XR and XS Max.

FEATURES:

- 15-watt wireless base
- Ultra-slim: the thickness of a credit card
- Tempered glass charging surface
- Qi technology
- ADS (Automatic Detection System) technology
- Smartphone charge level after 30 minutes with Quick Charge: 60%*

*Charging times are approximate and depend on the device being charged. The smartphone must support 15 W wireless charging in order for the base to charge the device at an ultra-fast rate.
