PROTECTION AND INNOVATION

The **Book View Case** for the **Samsung Galaxy S9** is a marvel of innovation. A new way of understanding the concept of smartphone protection: this book case supports the free **Go Touch** application where you can choose to view notifications of greater interest directly on the window of the case.

HOW TO USE?

Download the Go Touch app directly from the **Play Store** on your smartphone. Once opened, use the camera in the same app to scan the QR Code and the code found inside the cover. An **installation wizard** will then start for first-time access where you will be able to manage all the settings.

FREE TO CHOOSE

Book View Case meets the **needs of everyday life**, where it is increasingly essential to be connected, view notifications and incoming calls.

Through Go Touch you can choose which **popular apps** to display in the cover window, including WhatsApp, Telegram, Skype, Facebook, Facebook Messenger, Instagram, Twitter and LinkedIn.

You can also view other info such as time, current weather and temperature, the charge level of your smartphone and the strength of the wi-fi signal.

Answer calls without opening the book case: you just need a simple gesture to speak with friends or colleagues right away.
