

10 watt - 20,000 mAh wireless power bank

SKU: TEBB20000WIRCK

10 watt wireless charger, Intelligent Charge technology, Dual Charge and ADS, 2 USB 2.1A outputs, 1 Type-C input/output

MAXIMUM VERSATILITY

The **20,000 mAh power bank** is a truly eclectic accessory. It allows wireless charging for compatible Android or iPhone smartphones or can simultaneously power tablets or other accessories with USB and Type-C ports.

The charger can charge a smartphone with a 2,500 mAh battery **8 times**.

RAPID WIRELESS RECHARGE

Check that your smartphone is compatible with the **Qi protocol**: this system allows your device to be recharged wirelessly.

The power output in wireless mode is 10 watts, but the charger is also designed for smartphones that only need 7.5, such as iPhones. Thanks to **ADS technology (Automatic Detection System)**, the power bank recognises the power requirements and adjusts the power supply accordingly.

With wireless charging, your smartphone will be charged by **50% in just 30 minutes** without overheating or overloading.

OTHER TYPES OF CHARGING

If you don't have a smartphone that is compatible with Qi technology, or want to recharge wireless headphones or earphones, drones, consoles, eBook readers or other accessories, you can use the **2 USB 2.1A outputs or the Type-C port**.

You can simultaneously charge three devices at a time or choose only one of the two USB outputs for fast charging.

In fact, if used individually, the USB ports guarantee fast power supply thanks to the **Intelligent Charge** technology. This system promotes a fast and secure power supply: in just 30 minutes the battery level of your smartphone will already be at 50%.

The Type-C output is perfect if you have a cable with this type of connector instead.

If using 2 or 3 ports simultaneously, devices connected to the power bank will not be able to use fast charging.

CHARGING THE POWER BANK

This power bank boasts a **Dual Charge** system that allows you to charge your devices simultaneously while the same portable charger is powering itself.

It can be powered in two ways: with the Micro USB input or by choosing the **Type-C** port which also acts as an input.

The **4 status LEDs** allow you to monitor the energy levels within the power bank.

CHARACTERISTICS:

- Wireless
- 10 Watt (7.5W iPhone with Automatic Detection System)
- Capacity: 20.000 mAh
- Rapid Wireless Charging: 50% in 30 minutes*
- 2 USB 2.1A outputs
- 1 Type-C input/output
- Intelligent charge, Dual charge and Automatic Detection System technologies
- Micro USB charging cable included in the package
- 4 status LEDs

* Charging times are approximate and depend on the battery capacity of the recharged device.

10 watt - 20,000 mAh wireless power bank
SKU: TEBB20000WIRCK

Technical data

Recharging cable: USB/Micro-USB

Input: MICRO USB 5 VDC 2 A + TYPE-C 5 VDC 2.1A

Output: 2 USB 2,1 A, Type-C 5VDC/2.1A, Wireless: 5W/7,5W/10W

Battery: Lithium polymer battery

Technology: ADS (Automatic Detection System), Dual Charge, Intelligent Charge, Wireless Charge

Included accessories: Charging cable

EAN: 8018417292446

SKU: TEBB20000WIRCK

Battery capacity: 20000 mAh
