SKU: TEBUMPIP1461PT

The lightweight and durable bumper that fits perfectly into the frame of your smartphone

THE LIGHTWEIGHT BUMPER THAT PROTECTS THE EDGES OF YOUR SMARTPHONE

This particular type of protection only **wraps around the edges** of your smartphone. The **bumper** is ideal for those who want to protect their phone without making it too heavy.

PROTECTS YOUR PHONE AND ITS CAMERA FROM BUMPS AND SCRATCHES

The **Bumper frame** is the ideal protection for your **iPhone 14 Pro**. The semi-rigid material with which it is made (TPU+PC) makes it **resistant to bumps and scratches**. Moreover, thanks to the thickness of the shell, it raises the smartphone allowing optimal protection of the screen and **camera**.

The **side buttons** are covered, thus providing additional security without impeding functionality.

PERFECTLY SUITED FOR WIRELESS CHARGING

Wireless power is always possible with this bumper. The **back of the phone remains uncovered**, making charging easier.

TRANSPARENT DESIGN MAKES IT PRACTICALLY INVISIBLE

The Bumper frame is **transparent**, minimal and unobtrusive: practically invisible and unnoticeable. If you're looking for a type of cover that doesn't weigh down the profile of your smartphone and that you don't want to feel to the touch, this Bumper is for you.

WHAT MAKES IT STAND OUT:

- wraps around the frame of your smartphone: edges only

- protects the smartphone from bumps and scratches caused by accidental drops
- material: TPU+PC
- transparent
- leaves the back of the smartphone uncovered, facilitating wireless charging
