

# Maks - TWS Earphones with Active Noise Cancelling (ANC) technology

SKU: TEJZEARMAKSTWSBTW

**The earphones with built-in microphone that let you listen to music and make calls without being disturbed by background noise**

**Active Noise Cancelling (ANC) technology reduces and eliminates background noise**

The **Maks earphones** connect to your smartphone, tablet or laptop **wirelessly** and, thanks to **True Wireless Stereo (TWS) technology**, pair with each other as soon as they are taken out of the case. What makes them stand out is their **Active Noise Cancelling (ANC) technology**, which, when activated, **will almost completely eliminate any background noise**. This lets you totally immerse yourself in your favourite tunes without being disturbed. You can deactivate this feature and use them as normal earphones or, by double-tapping the left earphone, you can activate **transparency mode**, which lets you have a greater awareness of background sounds such as traffic.

**The in-built HD microphone keeps your voice crystal clear using Environmental Noise Cancellation (ENC) technology**

The in-built high-definition microphone ensures calls are always optimal. You will hear the voice of whoever you are speaking to very clearly and, thanks to the **Environmental Noise Cancellation (ENC) technology**, they will hear your voice clearly among even the loudest of surroundings. ENC technology **reduces background noise**, ensuring calls are always clear.

**Recharging is easy and wireless**

Maks headphones let you **listen to music and make calls for up to 5 hours**. When the battery is empty, simply place them back into their 300mAh (milliampere per hour) charging case and they'll be **back to 100% in 1.2 hours**. The base will give your earphones **up to 24 hours** of use. When the case runs out of power, you can power it up **wirelessly** via a compatible charging base or with a smartphone that allows reverse wireless charging. If you don't have these accessories, you can easily charge the case by connecting it to a mains charger or power bank via the **USB-A - USB-C** cable.

**Control music and calls with a single touch**

The earphones include buttons that use **Touch technology**. The **touch controls** on the earphones let you **pause/play tracks, change tracks, answer/reject/end calls** and even activate the **iOS or Android voice assistant**. All this without having to take your phone out of your pocket.

**Key features:**

- Wireless
- Active Noise Cancelling (ANC) technology that reduces and eliminates external noise
- True Wireless Stereo (TWS) technology
- in-built HD microphone
- Environmental Noise Cancellation (ENC) technology reduces background noise to make your voice always sound clear during calls
- Playtime: 4 hours (5 hours with ANC off)
- Stand-by time: 120 hours
- 300 mAh charging base
- Charging time: 1.2 hours
- total playing time with charge supplied by base: up to 24 hours
- Wireless charging compatible
- Touch controls for music, calls and voice assistance

**Contents include:**

- 1 x charging case
- 1 x USB-A - USB-C charging cable
- 3 x pairs silicone tips
- 1 x instruction manual

Maks - TWS Earphones with Active Noise Cancelling (ANC) technology

SKU: TEJZEARMKSTWSBTW

## Technical data

Frequency: 20 Hz-20kHz

Standby time: 120 hours

Talking time: 4 hours (5 hours ANC Off)

Recharging time: 1,2 hours

Recharging cable: USB - Type C

Speaker impedance: 32 Ohm

Listening to music: 4 hours (ANC On) - 5 hours (ANC Off)

Transmission distance: 10 m

Charged via charging base: 24 hours

Battery: 30 mAh

Buttons: Multifunction, Touch

Microphone: Environmental Noise Cancellation (ENC), HD

Technology: ANC technology - Active Noise Cancelling, Environmental Noise Cancellation (ENC)

Other features: in-ear earphones

Included accessories: 1 USB-C power cable, 3 interchangeable tip set, User manual, Charging cradle

Sound mode (mono/stereo): Stereo

Color: white

EAN: 8018417427411

SKU: TEJZEARMKSTWSBTW

Weight: 50 g

Charging base capacity: 300 mAh

Number of connections: 1
