

# Allox - TWS earphones with metal charging case

SKU: TEJZEARTWSALLOXBTk

## Semi in-ear True Wireless Stereo earphones for music and calls

### Wireless: listen to all the music you want without any wires

The **Allox earphones** allow you to listen to your favourite music anywhere **without the aid of wires**. The True Wireless Stereo (TWS) technology ensures a stable signal **up to 10 meters away** from your **smartphone, tablet or laptops**. The earphones will also connect to each other as soon as they are taken out of the charging case. You will have to pair them manually with the reference device only the first time: afterwards, **pairing will always happen automatically**.

### The metal case ensures optimal protection and easy charging

The **300mAh charging case** serves a dual function: its **metal cladding** ensures the headphones are protected from minor bumps and scratches, and the base also **powers the Alloxes** wherever you are without using other energy sources. When they are out of power, **just insert them inside the case** and they will be ready to use again in 1.5 hours. Using the base you'll be able to enjoy **up to 24 hours of music and calls**. And when the case runs out of power, you can connect it to a wall charger or to a power bank using the **USB-A - USB-C** cable included.

### Microphone with ENC for high definition calls

Thanks to **Environmental Noise Cancelling (ENC) technology** you will always enjoy high definition calls. If you find yourself in an environment that is not completely silent, **background noises will be reduced**: the person you are speaking to will be able to hear you clearly enough.

### Dual Leader technology and touch controls provide absolute convenience

Dual Leader technology **allows you to use only one headset** while the other is charging or is simply placed in the charging case; as each headset is actually equipped with a **built-in microphone**. The touch multifunction keys also allow you to execute

various commands without ever touching your device. Use them to **manage your music and calls**, and to activate the **voice assistant**.

**Key features:**

- wireless
- True Wireless Stereo (TWS) technology for automatic pairing between the earphones and with the device
- operating range: 10 metres
- use time: 4 hours
- 300 mAh metal charging case
- charging time: 1.5 hours
- run time with charge case: 24 hours
- stand-by time: 120 hours
- microphone with Environmental Noise Cancelling (ENC) technology: reduces external noise

**Contents include:**

- 1 charging case
- 1 USB-A - USB-C charging cable
- 1 instruction manual
