Chanè TWS earphones with ENC technology and fabric base

SKU: TEJZEARTWSTISSUEBTDG

These True Wireless Stereo earphones allow you to speak clearly on calls by reducing external noise

CHANE' TWS EARPHONES: FABRIC BASE AND ENC TECHNOLOGY, A MIX OF INNOVATION AND STYLE

The **Chanè True Wireless Stereo earphones** boast a winning combination of technology and design. On the one hand, there's the **stylish fabric base** for charging the earphones; on the other, the advantages of the **Environmental Noise Cancellation (ENC)** technology, allowing you to talk on calls without the usual interference caused by external noise.

THE FABRIC CHARGING BASE: POWER SUPPLY AND STYLISH DESIGN

You can charge the Chanè wireless earphones with the 400 mAh fabric-coated base. This case allows you to power the earphones: a single charge will give you up to **4 hours of consecutive use** . When the base runs out of power, you can recharge it with the cable with **USB-USB-C** connectors provided.
A distinctive feature is certainly the design with a **colourful fabric weave** that gives Chanè accessories their charm and style.

THE TECHNOLOGIES INCLUDED IN THE TWS EARPHONES: ENC AND DUAL LEADER

These wireless earphones are truly innovative, with two technologies to improve and facilitate daily use.
Environmental Noise Cancellation (ENC) is a feature that allows you to reduce background noise. Ambient sounds are automatically recognised and cancelled out. Your voice can then be heard with heightened clarity.
Dual Leader technology allows you to use the Chanè earphones both in stereo (as a pair), and in mono. While one earphone is charging, you can actually use the other for music and calls, avoiding battery waste.

HOW TO USE THE EARPHONES

When placed back in the base, the Chanè earphones switch off instantly. Once charged, they will turn on **automatically** when you take them out. They will also pair with each other automatically for using both in stereo mode.
The earphones connect wirelessly to smartphones, tablets and PCs: the **operating range of 10m** allows you to move away from

the source with some freedom of movement.
The multifunction buttons give you **complete control of your music and calls**. You can also use your phone's **voice assistant function**.
The product also comes with **two silicone caps** to improve grip and fit during use.

KEY FEATURES:

- True Wireless Stereo: the earphones automatically pair with each other
- 400 mAh fabric charging base
- ENC technology for reducing external noise, your voice will be crystal clear
- Dual Charge technology: use as a pair or just one of the Chanè earphones
