

Noise-cancelling wireless headphones

SKU: TEJZHEADPHANCBTW

These headphones are excellent for listening to music without buzzing or background noise

NO MORE INTERFERENCE

Music and calls without external interference: **Qumax wireless headphones** feature **ANC - Active Noise Cancelling** technology that prevents noise from disturbing your listening.

MUSIC AND CALLS

With these wireless headphones you can listen to music and answer calls. In fact, the Qumax have a **built-in microphone and controls** to manage music and phone calls.

ANC lets you hear the other person's voice or your favourite songs clearly, **even in noisy environments** like public transport or offices.

If necessary, this technology can be **temporarily deactivated** to save power or to pick up external noise without taking off the headphones.

NOT ONLY WIRELESS

The headphones have a **dedicated input for a 3.5mm jack cable**. If you have a jack-jack cable, you can connect **many types of consoles, smartphones or laptops** that don't have wireless connectivity.

COMFORT

The **padded earcups** ensure unique comfort: you can wear Qumax headphones for long periods without becoming uncomfortable.
