

## Wireless car support with Parking function

SKU: TESUPPWIR10WTAG

## Support with wireless charging with easy closure, clip for ventilation nozzle and Parking function via Go Tracker app

### ONE SUPPORT, THREE FUNCTIONS

The **Gravity support with parking locator** is an all-in-one multi-purpose product for any car journey.

This accessory allows you to attach your smartphone to the dashboard so you can clearly see it while driving and keep track of street maps and calls.

Gravity works in symbiosis with the SBS **Go Tracker** app, which can be downloaded free of charge from the App Store and Google Play: in this way, locating where you have parked your car will be easier than ever. In addition, via the wireless charging function, your smartphone will be charged wirelessly.

### EASY CLOSURE

Gravity is equipped with a practical clip to fix the support to the ventilation opening in your car.

The **easy closure**, which characterizes this support, will allow you to fix it with ease. Simply put your smartphone onto the lower arm of the accessory and gravity will do the rest: the weight of the phone will allow the side vices to close instantly so as to prevent accidental falls or slips.

### PARKING WITHOUT A THOUGHT

Gravity will **wirelessly connect** to the **Go Tracker application** on your smartphone. When you park your car, you can register your position through the app. This way, once you get back from work, a concert or an evening at the cinema, you can easily locate the **exact point** where you have parked on your phone.

### FAST AND SAFE WIRELESS CHARGING

Gravity support reloads smartphones with Qi \* **technology wirelessly**.

To provide Gravity with power, you need to use the USB - micro USB cable in the package by connecting it to the USB socket of your car.

In addition, if you want to take advantage of the quick charge mode, you can use a **Quick Charge** charger (not included) instead of the USB socket: in this way the energy level of your device will be up to **50%** in just 30 minutes.

#### **AUTOMATIC DETECTION SYSTEM**

**ADS** (Automatic Detection System) **technology** allows this charger to recognize the device's power needs, ensuring the correct level of charge in order to **avoid overheating**. Thanks to this innovative system, the support can recharge, among others, smartphones like the iPhone X, 8 and 8 Plus that require 7.5W power.

#### **FEATURES:**

- Support with wireless fast charging
- Parking function with the Go Tracker app
- ADS (Automatic Detection System) technology
- Max power: 10W
- Automatic closure to fix the smartphone between the clamps
- Clip to hook the support to the ventilation nozzle
- Charging transmission distance: <8 mm
- USB 2.0 - Micro USB charging cable included in the package
- Smartphone charge level after 30 minutes: 50% \*\*

\* Qi technology: this type of technology allows wireless charging of the device. Check your device's compatibility.

\*\* Charging times are approximate and depend on the battery capacity of the device to be charged.

Wireless car support with Parking function  
SKU: TESUPPWIR10WTAG

## Technical data

Coupling mode: Clip for air vent  
Recharging cable: USB 2.0 / Micro-USB  
Transmission distance: Less than 8mm  
Input: 5V/2A, 9V/1.67, 12V/1.45A  
Output: 5V/1A, 9V/1.2A, 12V/1.1A  
Suited for: Smartphones with Qi Technology  
Technology: ADS (Automatic Detection System), Wireless  
Charging type: Fast charge with Quick Charge charger  
Wireless Output: 10W  
Included accessories: Charging cable  
EAN: 8018417257353  
SKU: TESUPPWIR10WTAG  
Weight: 108 g
