

Clamp - 15W cradle for ultra-fast wireless charging

SKU: TESUPWIR15WAUT

15W wireless quick-charge cradle with Qi technology and Automatic Detection System, clip for air vent and automatic closure

EASY CLOSING, QUICK CHARGING

Clamp is the perfect **15W ultra-fast wireless charging cradle** to hold your smartphone and charge it quickly and securely. You'll have your hands free on the steering wheel while your device shows you street maps.

OPENS AND CLOSSES IN SECONDS

Don't waste time: the **automatic closure system** allows you to bring your smartphone closer to the holder and, thanks to an induction sensor, the arms will open to accommodate the device. They will then close without the need for any further intervention. To remove the device, simply swipe your finger over another sensor on the side to make the hooks open. No more worrying about **adjusting your smartphone while driving**, you'll always have a great view. Thanks to the built-in capacitor, the holder saves a small quantity of energy even after the car has been turned off. In this way, it can still work for 4 times within about half an hour.

ULTRA-FAST WIRELESS CHARGING

Clamp boasts **15 watts** of power: the energy is delivered simply by inserting a smartphone that is compatible with wireless charging between the arms.

You need to use the supplied USB - Type-C cable to power the cradle: plug the Type-C connector into the dedicated input and the USB connector into the 12/24 V socket of your car.

Plus, if you want to take advantage of rapid charging mode and get a 70% charge level on your smartphone after just 30 minutes, simply connect the cradle to a **Quick Charge** charger. This type of device is able to considerably reduce the time required for charging.

SAFETY FOR YOUR SMARTPHONE

ADS (Automatic Detection System) technology allows this cradle to recognise the power requirements of the device in order to avoid overheating. Thanks to this innovative system, the cradle can charge smartphones with 15W, 10W and 7.5W power, such as iPhones.

FEATURES:

- Automatic opening and closing system
- Ultra-fast wireless charging
- Clip to fix cradle to air vent
- Qi technology
- ADS (Automatic Detection System) technology
- Power: 15W
- USB charging cable – Type-C included in the package
- Smartphone charge level after 30 minutes: 70%*

* charging times are approximate and depend on the device being charged.
