

Bio Shield antimicrobial cover for Samsung Galaxy S20+

SKU: TEABCOVSAS20P

Soft, transparent satin-finished cover that reduces the formation and spread of microbes on surfaces, designed for Samsung Galaxy S20+

PROTECTION FOR YOU AND YOUR SMARTPHONE

The **Bio Shield antimicrobial cover** offers double protection. Firstly, it protects your **Samsung Galaxy S20+** from bumps and scratches, and secondly, it significantly reduces the presence of bacteria and microbes on its surface

CERTIFIED HYGIENE

This soft, transparent satin-finished case stands out thanks to its innovative spirit. The **Biomaster additive**, incorporated into the cover during manufacture, is able to proactively reduce, prevent and inhibit up to **99.9% of the growth of bacteria** on the treated surface.

This technology leverages the use of **silver ions** and is **certified** to ensure an excellent degree of hygiene for both humans and the environment. The additive is not simply applied to the surface but forms an integral part of the cover material; the guaranteed protection is total, 24 hours a day, 7 days a week. Moreover, Biomaster has been tested to comply with ISO 22196.

MAXIMUM PRACTICALITY

The **light, thin** cover does not detract from the design of your smartphone. Take photos thanks to the dedicated opening that fits perfectly around the edges of the camera; it is **very easy to put on and take off** – in a few seconds you can clad your device with protection that is as practical as it is innovative.

FEATURES:

- Antimicrobial cover with Biomaster additive
- Reduction of bacteria by up to 99.9%
- 24/7 protection
- Soft and transparent satin-finished
- Resistant to small impacts and scratches
