

## USB-C to HDMI cable for 4K/5K video playback

SKU: TECABLETCHDMI18K

**With this 1.8 m long cable you can connect a small screen directly to a large display**

### FROM A SMALL SCREEN TO A LARGE SCREEN

This **USB-C to HDMI cable** is the perfect solution for connecting your USB-C enabled laptops, tablets or smartphones directly to HDMI-compatible displays. It then allows you to watch videos on a larger screen such as that of **projectors, televisions or iMacs**. Thanks to the length of **1.8 m** it is possible to connect devices that are not close to each other.

### HIGH VIDEO QUALITY IS PRESERVED

The video cable can support **4K/5K resolutions** for iMac. The images are more realistic than ever: colours and sharpness are brought out to the fullest. The **signal transfer between devices is always optimal**: no black screens or flickering.

### MULTIPLE OPTIONS

The possibilities for use are **endless**: use two Windows screens without having to close or shrink one, follow a tutorial on a display while taking notes on text files, discuss a work project on a projector.

### KEY FEATURES:

- USB-C and HDMI connectors
- Supported Resolutions: 4K and 5K
- Length: 1.8 m
