

Mobile phone holder with cooling fan and 15W wireless charging

SKU: TESUPFANWIR15W

Avoid overheating and wirelessly power your device with this magnetic car holder

WHY BUY THE MAGNETIC CAR HOLDER WITH COOLING FAN

Frozen Mag and **car phone holder** to maximise comfort and convenience during your travels. Equipped with an **intelligent cooling fan**, this holder wirelessly charges the cell phone, preventing it from overheating and improving power efficiency. It is ideal for both iPhone owners and users of Android phones with wireless recharging capability

THE FAN THAT IMPROVES YOUR PHONEHOLDER EXPERIENCE: HERE'S HOW

The cooling fan is the main feature of the Frozen Mag magnetic holder. Place your smartphone on the cell phone holder to automatically start cooling your device. The small fan **dissipates heat without excessive noise**, also allowing the device to avoid overheating too much while charging.

WIRELESS RECHARGING GUIDE: THE CAR HOLDER IS COMPATIBLE WITH MAGSAFE

This car holder has a **capacity of 15W** to wirelessly power your Android or Apple phone. Just affix your wireless-compatible smartphone magnetically to the mobile phone holder. The holder is equipped with **ADS, Automatic Detection System** technology: this system recognises the power requirements of the telephone, avoiding overheating.

The car holder is **compatible with Magsafe charging** making it ideal for owners of **iPhone 12 and later**. It is also ideal for anyone owning an **iPhone 11, X, 8, 7** and previous since **it automatically limits the power around 7.5W, indicated for these devices**.

STABILITY AND VIEWING: THE WIRELESS CHARGING STAND

The stand design ensures a secure hold for your device. The screw clip, also suitable for **circular air vents**, keeps the cell phone holder stable, even during the bumpiest rides. Installing it is quick and simple, allowing you to focus on the road.

The joint allows you to rotate the mobile phone **horizontally or vertically** to give you the most convenient viewing mode.

ACCESSORIES INCLUDED IN THE PACKAGE: HOW TO IMPROVE YOUR EXPERIENCE WITH THE CAR HOLDER

Inside the package, you will find all the accessories required for optimal use of the holder.

The **cable with USB-C to USB-C connectors** is used to connect the holder to a car socket or charger to begin wireless charging. There **metal plate** included is for magnetically fixing the smartphone to the car holder.
