

## 5,000 mAh wireless magnetic graphene Power Bank

SKU: TEBB5000MINIMAG

### Small, powerful and durable: the power bank of your dreams, complete with Power Delivery

#### The advantages of a graphene power bank

The 5,000 mAh magnetic power bank is set apart by its **compact size** and unmatched **durability**. It owes its unique attributes to **graphene**: an ultra-efficient energy conductor. Graphene ensures that the power bank does not overheat or get damaged during even the fastest and most intense charging. It is also a **very light** material, which allows it to be made into **smaller accessories** that are still extremely powerful.

#### Ideal for charging your MagSafe enabled iPhone...

The **5,000 mAh magnetic power bank** can charge your mobile phone twice in a row (depending on the phone battery being charged). Simply hold a MagSafe-compatible iPhone close to its surface: the power bank **will firmly magnetically attach itself** to your Apple device and charge it at **15 watts**.

#### ... as well as Samsung devices and many more!

The **5,000 mAh magnetic power bank** is also designed to charge Samsung, Xiaomi, Huawei and Oppo wireless charging-enabled phones and devices, as well as many other brands. Simply place your smartphone on the surface of the power bank to start charging.

#### The USB-C port with Power Delivery (PD) delivers ultra-fast charging

The **20-watt USB-C port with Power Delivery (PD) technology** allows you to rapidly charge your device battery to 100% in just 45 minutes (times may vary depending on the battery of the device being charged).

The ideal solution for charging many accessories such as **mobile phones, speakers, e-readers, smartwatches and TWS earphones**. The magnetic power bank always offers **safe charging** without any risk of overheating or short-circuiting. The USB-C port can also be used to charge the power bank via the **included USB to USB-C cable**. You can easily monitor the charge level using **the 4 status LEDs**.

**Compact and portable, even on planes: for all your charging needs**

Its distinctive super compact design allows you to easily store it in a rucksack or handbag to carry it with you wherever you go. You can even **take it with you on flights** to keep your devices charged while you're on the move.

**Key features:**

- charges MagSafe-compatible iPhones by magnetically attaching to the shell
- also suitable for wirelessly charging Samsung, Xiaomi, Huawei and Oppo devices, as well as many other brands
- can also be used to wirelessly charge iPhones without MagSafe
- 5,000 mAh (milliampere-hour) battery capacity that can charge devices twice in a row
- graphene technology: small, durable and very powerful
- a USB-C input and output port with 20-watt Power Delivery (PD)
- 4 status LEDs to accurately display the charge level of the power bank
- compact size (8.3 x 6 x 1.4 cm)
- can be taken on flights

**Includes:**

- 1 charging cable with USB-C to USB-C connectors
- 1 instruction manual

5,000 mAh wireless magnetic graphene Power Bank  
SKU: TEBB5000MINIMAG

## Technical data

Recharging cable: USB - Type C  
Input: 5V D.C. 3A/9V D.C. 2.2A/12V D.C. 1.67A (PD20W)  
Output: Wireless: 5W/7.5W/10W/15W  
Battery: Lithium polymer battery  
Technology: Power Delivery (PD), Wireless Charge  
Type C output: PD 20W  
Wireless Output: 15W  
Included accessories: 1 USB-C power cable, User manual  
Color: black  
EAN: 8018417439391  
SKU: TEBB5000MINIMAG  
Weight: 100 g

## Logistics data

Depth Pack: 30 mm  
Width Pack: 90 mm  
Depth Inner: 200 mm  
Height Pack: 200 mm  
Weight Pack: 185 g  
Width Inner: 150 mm  
Amount Inner: 6  
Depth Master: 550 mm
