The **ultra-resistant cover from the Unbreakable Line** for the **iPhone XS/X** guarantees exceptional protection for your device. This particular case has passed intensive **drop tests** (impact tests), simulated falls from a height of 4 metres, thanks to its three distinguishing components.

In fact, inside the cover there are two protective layers with the addition of a transparent screen that allows you to use the touch functions on your smartphone display.

The case is made of a double material that allows **higher absorption of vibrations** caused by impacts, offering greater protection than a standard cover.

Maximum protection on one side, great practicality on the other: the Unbreakable cover will allow **easy access** to all keys and connectors on your device.

Protect your smartphone from scratches, impacts and dirt without giving up an accessory with a **modern style**.
