

Sunglasses Screen Glass for iPhone 11 Pro/XS/X

SKU: TEVISIP5819S

Mirror-effect, multi-tone protective glass for iPhone 11 Pro, XS and X

The **Sunglasses screen glass** is an innovative screen protector that protects from bumps and scratches and has a unique mirrored and multi-tone effect just like the lenses of the most fashionable sunglasses. Give your **iPhone 11 Pro/XS/X** the perfect accessory to make it stand out in the crowd.

The **patented polarization process** allows this protector to maintain its reflective colour even when the device is not operating, that is when switched off or on stand by. As soon as the device is switched on or operated however, the glass will become **transparent** so the display is visible.

This protector, which is very easy to affix to your device, is made from tempered glass and fully protects your iPhone 11 Pro/XS/X display. The **9H hardness rating** certifies the durability of the product: even the corners of the glass have been designed to be especially resistant.

Features:

- Evisionglass™ patented polarisation process
- Mirror-effect and multi-tone
- Material: tempered glass
- Bump and scratch resistant
- Easy to affix
