EMANCIPATION IN MUSIC

The **Free Twin TWS earphones** echo the musical canons of the genre after which they are named. Eccentric, innovative, multi-faceted: these wireless earphones have the power to enhance the most intense and emotive nuances of your favourite music tracks.

FREEDOM OF USE

Free jazz represented a movement in which black people rebelled against oppression. Freedom resonates in these earphones: visible keys have been replaced with **touch sensitive controls** for total song and call management.

The earphones are wireless: you no longer have to deal with annoying tangles. After pairing them with your smartphone, you can use them to listen to the songs you love most - and more.

With "Free" you can use **Siri** by pressing the multifunction key for about 4 seconds. You can also talk to friends and colleagues using the integrated microphone. The earphones turn on automatically : simply remove them from the charging base. To turn them off simply put them back on to the base.

Ergonomic and with an elegant design, these earphones are characterized by great wearability and comfort. The package also has **six ear pads** to ensure perfect grip inside the ear.
