

## Second SIM Case for iPhone 8/7/6s/6

SKU: TECOVERSIMIP8

Go Phone

### Cover with a Nano SIM slot, which connects with the Go Phone app, for iPhone 8/7/6s/6

#### WHY CHOOSE IT?

The **Second SIM Case** is the ideal accessory for those who want to use two different phone numbers on their **iPhone 8/7/6s/6**. Thanks to the **Go Phone** application, you can manage another SIM when inserted into this cover.

#### TECHNOLOGY AT YOUR FINGERTIPS

Using this cover's features is really simple: simply insert a **Nano SIM** into the dedicated slot. Connect using Bluetooth the cover of your iPhone 8/7/6s/6 and manage it using the **free Go Phone app**.

If a PIN is set on your SIM, you must remove it before connecting it with the cover.

Then you can use your Apple device with **two numbers**: for example, one business and the other personal.

While the Second SIM Case is in use, you can **simultaneously connect** other accessories such as speakers and earphones to your iPhone via Bluetooth.

The SIM in the cover slot can be used as a **telephone line** and for **sending SMS**.

The battery can be recharged inside the cover thanks to the Micro USB cable included in the package.

#### WHAT HAPPENS DURING CALLS?

The Second SIM Case offers you the convenience of having **two telephone numbers on a single iPhone**. Find out how useful it is to be able to use one device for both **work calls and personal use**.

If you are taking a call through the Second SIM Case and receive a phone call on the main SIM, or the one inserted in your iPhone, the phone call in progress with Go Phone is interrupted, **giving the main line priority**.

If, while talking through the main line, you get a phone call on the SIM inserted in the Second SIM Case, the **busy or unavailable tone will sound**.
