

TWS Micro BT400 Earphones

SKU: TEEARSETBTTWS400K

Stereo earphones with 300 mAh charging dock, V4.2 Bluetooth, answer/end call button, black colour

THE RIGHT CHOICE

The **TWS Micro BT400 earphones** are a technological marvel with great practicality. They **weigh just 4.6 g** each and have many useful features for everyday life. Make calls and chat wherever you are.

TECHNOLOGY AT YOUR SERVICE

These ultralight earphones with a very compact size are equipped with an integrated microphone and an answer/end call button. The TWS Micro will go into mono mode as soon as you receive a call, while you can listen to your favourite music in stereo mode, i.e. from both earpieces.

The earphones switch on automatically as soon as they are removed from the charging base included in the package. The first time you use them, you will need to set up Bluetooth on your smartphone and pair the headphones (" **pairing**" procedure). To turn them off, you just need to place them on the base which also acts as a case.

POWER DOCK

The charging box is equipped with an **internal battery of 300 mAh** which you can use to wirelessly charge the earphones up to 3 times. After you have positioned them, you must switch off the dock to turn them off and the TWS Micros will start to charge. Once the dock has ran out of power, you can use the supplied Micro USB cable to give it the necessary charge.
