

LED safety light for bicycles, scooters and Segways

SKU: TEERLIGHTBIKE

LED light for travelling safely on scooters, bicycles and Segways, even at night

STAY SAFE EVEN IN THE DARK

Travel sustainably and safely: with this **LED light** you can ride **bikes, scooters and Segways** even in low light conditions. Travel home from the office in the evening without worrying about cars and motorbikes, or enjoy cycling sports even in the winter when there are few hours of daylight available.

LED LIGHT

This accessory offers **two white light modes**. The **first mode** provides a **steady light**, ideal for clearly seeing the road ahead. The **second mode** provides a **flashing light**, ideal for practising sports and signalling one's presence more clearly to passing vehicles. The **on/off** button on the spotlight allows you to choose the option that best suits your needs.

SILICONE CLOSURE

The **silicone strap** on the back is designed to **fit the light quickly and easily** while still allowing you to **adjust it as required**. Simply wrap it **around the handlebar** and wrap the spotlight around it, which will firmly secure it to the bike.
